

Laid Service

When porn star Julie Ashton asks her hunky bodyguard Conrad to help clean her apartment, her real purpose is to get him to fuck her. When they begin making her bed, the blonde anal queen gets her wish. Before Conrad can say "fresh clean sheets," Julie's tits and slit are exposed and she's going after his cock. Not wanting to jeopardize his job, Conrad gets naked and drops on the bed with his big-titted boss. Julie then takes her employee's rod into her drooling mouth. Maybe she should just hire a maid?

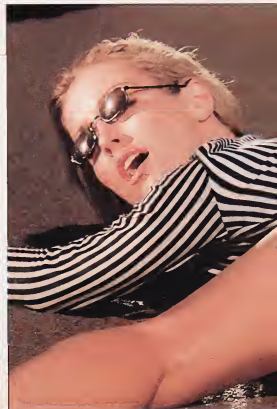

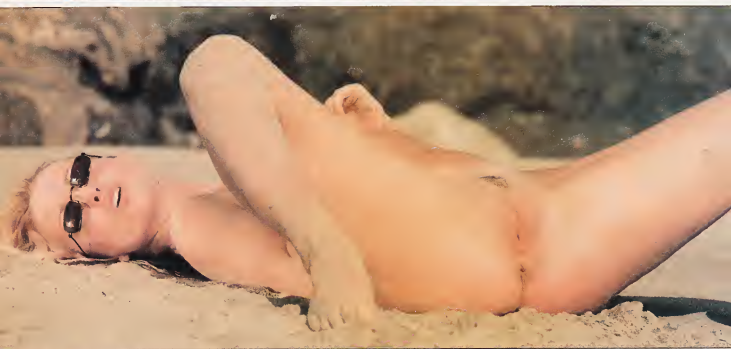

SAND POON

With the beach hot and crowded, Suzie decides that a little privacy is what she needs. So, the blonde beauty ducks behind a rock, pulls off her bathing suit and strokes her pussy until it's wetter than the ocean. With the feel of wet sand stuck to her perfect ass and the super sensation of the surf flowing through her folds, Suzie's day at the beach is turning out better than she thought. One thing's for sure, Suzie can make us cum in waves!

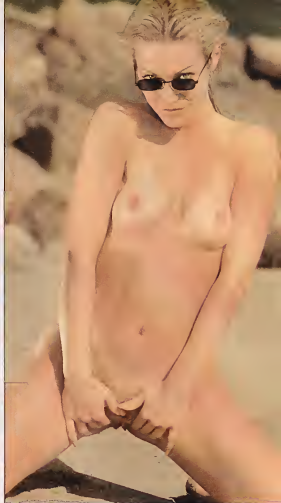

She's got plenty of experience in the school of hard cocks, but when Shauna Harris opened the Center For The Study Of Ejaculatory Function, the medical world was shocked. No one realized this nasty brunette would become such a popular therapist in her exclusive community. All morning, Shauna walks around the waiting room in her white plastic boots and miniskirt, horny with anticipation. She strips to her pink undies and dreams of the throbbing manmeat of her next patient, while fingering her slippery twat. Her trembling climax rocks the sofa—then Shauna dresses quickly. It's time for her first appointment!

Since her last two boyfriends broke up with her, Lisa has sworn off men. She's even found something to take the place of cocks: her feet. "It's strange," Lisa says, "but when I put my tongue on my toes my pussy gets as wet as the sea." Lying on her bed nude, Lisa sucks her right foot while she plays with her pussy. The faster she licks the harder she strokes. We don't think Lisa will be visiting Fayva in the near future.

Our Lesbomania quartet—Paige Summers, Tonisha, Jordan St. James, and Elizabeth—have returned to the HIGH SOCIETY estate in Los Angeles to enjoy each other by the pool. The frisky foursome play in the sensual waters until they're out of breath, and their tingling pussies are generating their own moisture. Paige and Elizabeth pair off on the deck, and Jordan and Tonisha begin a mutual muffdive on an inflatable raft. Tonisha fingers her friend's slobbering slit until she's on the brink of orgasm, then leads her to the hot tub for a wet climax. What a sweet reunion!

SEA OF CUM

I'm most comfortable at sea," twat-stroking seamstress Danielle says. This raven-haired sailor is getting her vessel prepared for another pussy rubbing voyage. "What I like to do is take my boat out into the middle of the ocean and play with myself for hours," Danielle tells us. As she gets the boat ready, Danielle gets a sniff of salt water and is wet in no time. Although she has a lot of chores to do, this sailor wants to spend some time floating her own erotic fantasies. She can set sail later.

PHILIPS

American graduate student Monica is trying to enjoy her spring trip to England when she runs into Nigel. The outgoing Brit tells her straight out "I wanna stick me tongue in your twat." Monica answers her new friend by lifting her skirt and showing Nigel that there are no panties covering her pussy. When they arrive at Nigel's small, but tasteful flat, Monica is surprised to see a video camera all set to roll. She smiles and then begins removing her clothes. As Nigel's camera rolls, Monica plays with her dripping pussy. Finally, Nigel puts the camera on automatic and lets it capture all the action as he fucks Monica from behind. Now, that's our kind of action/adventure flick!
